

Remarks

A sketch showing proposed changes to the drawings is enclosed herewith for the Examiner's approval. Formal drawings incorporating the proposed changes will be submitted upon receipt of the issue fee. No new matter has been introduced since the addition to the drawings are for originally-claimed features only.

Claim 11 has been withdrawn from a further consideration without prejudice. In Claim 6, the rotating blade has been recited to have an axis with which to judge symmetry thereby eliminating a basis for the rejection of claims under 35 U.S.C. 112, second paragraph. Claim 14 has been clarified so that the claimed region is related to other structural elements.

Claim 1 has been amended to include a subject matter of original claims 4 and 5 indicated to be allowable. Also, claim 15 has been amended to independent form by inclusion of all of the limitations of base claim 1 and allowable claim 19.

It is, therefore, respectfully submitted that all of the claims remaining in this case are in condition for allowance and an early notice to that effect is earnestly solicited.

Respectfully submitted
